## Isaiah Nields

Software Engineer352-339-3903isaiahnields.comimnields@gmail.com

Experience	Software Engineer iMobile3, Point of Sale Team	Jan 2018 - Present				
	- Designed, developed, and published 5 applications to automate business and	Tresent				
	competitive analysis tasks, which garnered over 600 downloads					
	- Collected and analyzed data about 22 Android and iOS point of sale applications, while					
	constantly monitoring for new features and updates					
	- Researched UI/UX designs and made recommendations to Android development team					
	Computer Engineer	May 2016 -				
	University of Florida, Coleman Lab	May 2017				
	- Designed and developed a low-cost operant chamber for behavioral experiments conducted in the Coleman Neuroscience Lab					
	- Programmed the operant chamber trial flows with Python 2.7 and created a control					
	panel GUI with Tkinter					
	- Assisted in constructing the operant chamber circuitry on an Arduino					
Education	University of Florida	Aug 2017 -				
	Bachelor of Science in Computer Science	Jun 2020				
	GPA: 3.96 / 4.00					
Projects	CSV to SQLite					
,	Electron Apps, 520 downloads					
	- Designed and developed an app to convert CSV files to SQLite databases using Electron,	Node, and				
	Vue					
	- App allows a user to quickly set column type affinities and a primary key for each table					
	- Converts CSV files over 50% faster than a standard command line method					
	Search Queue					
	Chrome Store, 48 users					
	- Spearheaded development of Chrome extension that allows a user to queue up multiple searches and					
		earches and				
	quickly make them					
	quickly make them - Reduced time to complete competitive matrices at iMobile3 and TIAA Bank by over 259					
	quickly make them  Reduced time to complete competitive matrices at iMobile3 and TIAA Bank by over 259  Business Classifier					
	quickly make them - Reduced time to complete competitive matrices at iMobile3 and TIAA Bank by over 259  Business Classifier  GitHub, iMobile3	6				
	quickly make them - Reduced time to complete competitive matrices at iMobile3 and TIAA Bank by over 259  Business Classifier  GitHub, iMobile3 - Saw use for, designed, and developed Python 3.6 app that classifies businesses at iMobile3	6				
	quickly make them  Reduced time to complete competitive matrices at iMobile3 and TIAA Bank by over 259  Business Classifier  GitHub, iMobile3  Saw use for, designed, and developed Python 3.6 app that classifies businesses at iMobile3  Consolidates business category data from Facebook and Yelp APIs using Requests Pytho	6				
	quickly make them - Reduced time to complete competitive matrices at iMobile3 and TIAA Bank by over 259  Business Classifier  GitHub, iMobile3 - Saw use for, designed, and developed Python 3.6 app that classifies businesses at iMobile3 - Consolidates business category data from Facebook and Yelp APIs using Requests Pytho - Scrapes data from Google Maps with Selenium using XPath	% 3 n library
